Trainity 08/2024 – 10/2024

Data Analytics Trainee

Sub Projects

- **IMDB Movies Analysis:** This project aims to analyze the factors that influence the success of a movie. I have used MS Excel to complete the analysis for this project.
- **Bank Loan Case Study:** In this project, the task is to use Exploratory Data Analysis (EDA) to analyze patterns in the data and ensure that capable applicants are accepted. The main tool used in this project is Python.
- **Impact of Car Features:** By using data analysis techniques such as regression analysis and market segmentation we analyze which car features impact more on the sales of the vehicle. Tech Stacks used for this project are MS Excel and Power BI.
- **ABC Call Volume Trend:** Focusing on improving the customer experience of a call center the main aim of this project is to attract, engage, and delight customers, turning them into loyal advocates for the business. To achieve that some changes like increasing manpower and implementing nightshift has to be done. This project is completed by using MS Excel.

EDUCATION

B.E. Civil 2021 | Mysore, India
Maharaja Institute Of Technology.

SKILLS

MS Excel	● ● ● ● ●	Power BI	● ● ● ● ●
MySQL	● ● ● ● ●	Python	● ● ● ● ●

DECLARATION

I hereby declare that all details mentioned above are true to the best of my knowledge and belief.
